solar panels when looking to upgrade my 150 to this Sunyee 300w so hopefully this will be useful to others. I have a DCDC charger so bypassing the Solar Controller I last got 12-13amps at 3pm in full sun. (during February in Sydney) I was pretty happy with that result, the best I ever got from my unbranded 150w was 6amps at Midday.

Et cette caractéristique peut être vue comme un inconvénient. Si un simple panneau solaire vaut 200 € ; 400 EUR, l'équivalent embarquant la technologie Shingled vaut 250 € ; 450 EUR. ? Voici un tableau comparatif des caractéristiques des panneaux solaires 300W simples et des panneaux solaires 300W Shingled : ? ?
