

40000 mAh lithium battery pack

What is a 40000 mAh power bank?

The 40000mAh power bank is a high capacity portable charger that is designed to provide multiple charges for your devices. With a capacity of 40000mAh, this power bank can charge your smartphone, tablet, or laptop multiple times before needing to be recharged itself.

How long does a 40000 mAh power bank take to charge?

The 40000mAh power bank takes approximately 16 hours to fully recharge itself when using an 18W wall charger (not included). This allows for convenient and efficient charging of the power bank before it can be used to charge other devices. 3. How much charge is 40000mAh? A 40000mAh power bank can provide multiple charges for various devices.

Can a 40000mah power bank charge a laptop?

Yes, a 40000mAh power bank can charge a laptop. With a 65W USB-C port, it can provide enough power to charge a laptop at full speed. For example, it can fully charge a 15" MacBook Pro in just 1.8 hours. It is a convenient option for business trips or when you are on the go.

How many devices can a anycool power bank charge?

The Anycool Power Bank offers a massive 40000mAh capacity, ensuring you can recharge your devices multiple times, making it perfect for long trips or emergencies. With four built-in cables and five output ports, you can easily charge up to five devices at once, eliminating the hassle of carrying extra cords.

How many devices can a power bank charge?

18W Fast Charging: Our power bank with QC support can charge 3 devices (iPhone, Tablet, Android phone) simultaneously at a max speed up to 3 amps. Ideal for quick and reliable charging while traveling
