

Benefits of installing outdoor power supply

Are power points suitable for outdoor installation?

Power points meant for outdoor installation are designed to stand up to the rigours of the natural elements. Unlike indoor outlets, they are exposed to the elements 24/7 and are constructed using UV-stabilised materials to protect them from damage.

Do I need a GFCI outlet if I run power outside?

When running power outside, a GFCI-equipped outlet is required by code in all areas exposed to moisture, such as the outdoors, and ensures safety. When adding an outdoor outlet, be sure to choose an outdoor-rated, weatherproof model with built-in, high-sensitivity GFCI.

Is a permanent power outlet necessary?

For lighting, lawn tools used on a regular basis, or power needs for outbuildings, you need a permanent power solution for safety. This can involve an outdoor outlet addition to your home's main structure, or wiring run remotely to an outbuilding.

Do outdoor power points need GFCI outlets?

To sum it up, outdoor power points should be weather-resistant and tamper-resistant only then will they be able to withstand the harsh outdoor elements. For added safety, you must go for GFCI outlets because they turn off the power point before accidents can take place. This way, you won't have to worry about the safety of your family and property.

What is the difference between indoor and outdoor electrical outlets?

Basically, the difference between the 2 lies in the construction. Those installed indoors are made of standard materials, meaning they aren't waterproof. For this reason, indoor electrical outlets aren't meant for outdoor use. Power points meant for outdoor installation are designed to stand up to the rigours of the natural elements.

Can a power point be installed outside?

As a homeowner, you cannot install any standard power point outdoors and only weather-resistant power points should be installed in all residential properties. This is applicable to all outlets installed within a property, including those around patios, hot tubs, pools, and decks.
