Simply put, UPS are backup power sources but a portable power station can function either as a backup or the primary power source. Portability. UPS is a better choice for home or office operations. This is due to their bulky nature which can hinder mobility from one place to another. Unlike UPS, power stations are a great alternative to this ...

A UPS (Uninterrupted Power Supply) is a backup battery that keeps the equipment plugged into it running in the event of a power outage. It's not just a glorified power bank, because the UPS detects interruptions in the power and automatically switches the connected devices to running off the UPS battery, so they don't shut down.
