Can Greece New bring outdoor power supply

In February 2024, Saudi Arabia's state-owned Saudi Electricity Company, which enjoys a near monopoly in the generation and transport of electricity in Saudi Arabia, formed a new company through its subsidiary, National Grid S.A., with Greece's Independent Power Transmission Operator (IPTO).

In the supply chain of the past, companies sold products and services through linear value chains. But innovation and disruption have pushed companies into a new supply chain model driven by digital ecosystems and market networks that enable hybrid forms of cooperation and competition.

Notes on reading the table: The first entry each line conductor indicates the resistance in Ω/m for a single wire of that cross section. The remaining entries indicate the round trip resistance ($R1 + R2$) for a pair of wires. Typically either a line conductor and a (usually) smaller CSA protective conductor, or a Line and Neutral conductor (typically the same size).
