To get a solar installation in Cape Town, contact Solar Energy Installers today by completing our online form. We will connect you with a leading Solar energy provider in Cape Town and surrounding areas, ensuring a professional installation that complies with all South African standards.

What is a surface solar pump?

Surface solar pump - these sit above ground and move water through pipes. They are handy for moving large quantities of water at a slow pace and are commonly found on farms or large irrigation systems where water needs to be moved from a lake or other body to fields or landscaping.

Are solar pumps a good solution to South Africa's electricity problems?

The solar pump is one of the most effective solutions to South Africa's electricity difficulties since it makes use of the sun's abundant free energy. Solar pumps are simple to install, need little maintenance, and have a lifespan of around 20 years. This implies that their serving expenses are minimal beyond the initial setup fees.

Our range of water pumps stretches from light submersible pumps for small water features or wells, to borehole (deep well) pumps and motors for home, agricultural or commercial use. With a fully stocked retail store in Pretoria, you'll find all types of irrigation equipment from sprinklers, pipes, tanks, controllers, solenoids, clamps fittings etc.
