

Extra large capacity portable power supply

What can portable power stations help with?

Portable power stations can help with camping for the weekend, living off-grid, or protecting against power outages. Over the past few years, as people have turned away from gas-guzzling generators, portable power stations have enjoyed a meteoric rise. You can buy tons of power stations with varying portability and capacity.

What devices can a portable power station run?

So long as your portable power station has the right ports and enough capacity, it can run a massive range of devices, including phones, laptops, and desktops. Higher capacity units will also let you power appliances and charge electric vehicles. Check which ports your preferred model has, including USB Type-A and Type-C, AC and mains sockets.

What are the best portable power stations?

Larger portable power stations, like Anker's new Solix F3800 Plus, are also pushing the definition of portability. More closely resembling a whole-home backup, the Solix F3800 Plus is a successor to the Solix F3800, which currently takes a spot on CNET's list of the best tested portable power stations.

Should I buy a portable power station?

For some, a smaller, more portable unit will help keep your router and laptop running to wait out an outage, but you'll also have to manually keep the power station charged and ready to go, plus you'll have to move your devices over to the power station when the power goes.

What ports does a portable power station have?

Ports: AC outlets, USB-A, USB-C, car ports, barrel ports, and solar inputs are some of the ports you might find on portable power stations. However, it's crucial to check the maximum charging rate and supported charging standards for each port to avoid disappointment.

Do portable power stations have a surge function?

Most power stations have a surge function that allows them to output more power for a short period of time. This feature is sometimes called by different names, such as 'AmpUp' by Zendure or 'X-Boost' by EcoFlow. Ensure your chosen power station can handle the wattage you need.
