

France Travel Outdoor Power Supply

What electrical adapter do I need to travel to France?

Traveling to France requires the right electrical adapter to ensure your devices stay charged and ready for use. France uses Type E sockets, and the standard voltage is 230V with a frequency of 50Hz. The adapters in this list have been carefully selected for their compatibility with French sockets, durability, and user convenience.

What does a travel plug adapter look like in France?

When you are going on a trip to France, be sure to pack the appropriate travel plug adapter that fits the local sockets. But what do those electrical outlets look like? In France, types C and E are the official standards. Unlike almost all other European countries, France has standardized on the Belgian plug and socket system.

Can a universal power adapter fit a France outlet?

Universal power adapters usually come with multiple plug types and can be adjusted to fit France outlets and many others. If your devices are not compatible with the voltage in your destination country, a voltage converter or transformer will also be necessary to convert the voltage to the appropriate range for your devices.

What type of power adapter does France use?

Power Adapters: France uses two main types of sockets, type C (the cute one with two round pins) and type E (with the grounding pin). Your North American two-pronged plug won't fit, so grab a universal adapter or a specific type for France. **Frequency:** This is about the grid's tick-tock, measured in hertz (Hz).

What is the voltage in France?

The voltage in France is the same as in Europe. Europeans do not need a travel adapter or transformer when traveling to France. Most device plugs will work with the outlet types in France. **What Outlet does France Use?** Type C plug sockets are used in Europe, Africa and Asia.

Do I need a plug adapter in France?

Not to be stranded, you will need an adapter to connect to power when you visit a place where the socket/plug shapes are different from where you stay. As long as you can identify the type of plug your devices use and the type of sockets used in France, getting the fitting adapter will be easy.
