

Home Inverter Service

Who is inverter service?

Inverter Service is a division of Itron Service Pty Ltd ABN 63001323539 Solar Inverter Repairs Australia. Sharp, Clenergy, Aero-Sharp, CMS and more. We offer Australia wide shipping of all Inverter units.

What is a split-phase inverter?

A split-phase inverter is a device that converts DC power generated by a generator, battery, or solar power system into 110/240V AC power for domestic and industrial power needs in North American countries. Copyright © Shanghai Sunplus New Energy Technology Co., Ltd.

What is a hybrid storage inverter?

The Sunplus AF Series Hybrid Storage Inverters are designed to increase energy independence for homeowners and commercial users. The Hybrid Inverter power range is from 1kW to 20kW, compatible with low voltage (40-60V) batteries and high voltage (150-800V) batteries.

How do single-phase inverters work?

Single-phase inverters operate by transforming the direct current (DC) from solar panels into alternating current (AC) suitable for household use. The process begins with electronic components such as MOSFETs (Metal-Oxide-Semiconductor Field-Effect Transistors) and capacitors.

What is a solar string inverter?

Solar string inverters are electrical devices that convert the direct current (DC) generated by solar panels into alternating current (AC) that businesses can use. They are usually installed in a string formation where multiple solar panels are connected in series to form a single circuit.

What is the power range of a hybrid inverter?

The Hybrid Inverter power range is from 1kW to 20kW, compatible with low voltage (40-60V) batteries and high voltage (150-800V) batteries. Sunplus latest EV Charging Station product line offers a range of innovative solutions to meet diverse charging needs.
