How much are SMA inverters worth?

They are worth about \$100 each inc installation. SMA are a German brand who make their 3 phase inverters there, and single phase models in China. At time of writing, SMA did not have any hybrid inverters available, but a single phase hybrid model is coming " soon ". I continue to be baffled by SMA's decisions, especially in the residential market.

What is frequency inverter?

The frequency is directly related to the rotary speed of the motor, in other words, the faster the frequency, the faster the rotary speed. If the motor is no need to run at full speed, the frequency inverter can be used to reduce frequency and voltage to meet the requirement of motor load.
