What are the different types of power plugs in Georgia?

In Georgia, there are two main types of power plugs and outlets: Type C and Type F. Type C: Type C plugs have two round prongs on either side of the plug, commonly known as Euro plugs. Mostly used in Europe, South America, and Africa. Type C outlets can be fit with either Type E or Type F plugs.

Are Georgian roads safe?

Be careful! They say that if you want to stay safe on Georgian roads, forget the rules that apply in your country and understand (if you can) how they function in Georgia. Expect the unexpected! I really love the Georgian people but they can be crazy drivers! Up until now, it's the only country where I haven't felt safe on the roads!

Why do you love to travel to Georgia?

We love to travel to Georgia because it has everything we like when traveling: stunning scenery, tasty food, lots of fun activities, exciting history, and low prices. However, it was difficult to see the poverty, especially among elderly people. We strongly recommend visiting Georgia soon, as it is expected to become full of tourists.

Citizens of 26 EU member states have the right to enter Georgia without a visa and stay inside the country for a full year. They can enter the country holding a travel document or an identity card issued in the European Union.
