

What are mg containerized gensets?

MG containerized type gensets use advanced sound-absorbing materials, scientific and unique design in airflow and noise control. The container is with CSC certification, in line with international container security convention, ensures shipping directly as a standard container, and greatly saves the cost of transportation.

What is a Tier 4 containerized generator?

Our Tier 4 containerized generators are high-powered --500 kW to 1250 kW-- units packaged in 30-foot or 48-foot ISO containers.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.

What size genset container do I Need?

The container is fixed with an inspection door at each side, also equipped with a ladder outside for easy inspection and maintenance. -According to genset dimension, below 1000 KVA, it will use ISO 20'ft GP or HQ container and 40' HQ container for above 1250KVA.

Robust Performance-Fully integrated containerized generator set is optimized for diverse critical power requirements regardless of environmental conditions.; Cummins heavy-duty QSK60 engine - Proven performer, rugged 4-cycle industrial diesel delivers reliable power, low emissions, and fast response to load changes.; Flexible Layout - Stackable design allows for smaller footprint, ...
