#### Mobile power bank in the car

What are car USB chargers & power banks?

Car USB chargers and power banks are electronic devices that charge laptops, cell phones, and digital cameras. But these are both aspects of a string, and both machines perform the same function, creating confusion among the users.

What are the best power banks to keep in your car?

Here's a list of some of the best power banks, suitable for keeping in your car, in case of emergency. QUICK ADVICE: Don't forget that these banks are pretty much useless without a cable. Make sure you have a compatible charging cable stored with the power pack in your glove box. Editor's choice Anker PowerCore Slim

Should you buy a car charger or a power bank?

A car chargeris an ideal option when you are travelling by car. It can help you save your battery from getting discharged. A power bank is a perfect option when going out for more days and even going to work. So, it entirely depends on your needs, which one to purchase.

What features should you consider when buying a portable power bank?

Pass-through charging is another feature to consider; with it, you can charge your device and a portable power bank simultaneously. That's convenient if both your phone and backup battery are running on empty.

Should you buy a portable battery or power bank?

Watching your phone or tablet steadily run out of power when you're nowhere near an outlet is stressful. But there's an easy solution: a portable battery or power bank. These are available in many sizes and capacities and can include handy features like fast charging and extra ports.

Do you need a power bank to charge your phone?

If you have a newer Android phone, or the latest iPhone models, you'll want a power bank with faster charging speeds to get your battery full faster. You can also find a power bank that charges your phone (or even your Apple Watch) wirelessly.
