

Who installs solar pumping systems in Morocco?

Watersol Maroc installs off-grid, grid tied and solar pumping systems in Morocco. Depending of the specific need of the client, we propose the system which is the most adapted and with the fastest return on investment. Furthermore, PV systems generate no pollution!

What solar thermal systems does watersol Maroc install?

Watersol Maroc installs solar thermal systems to produce hot water, heat pools and heat spaces (i.e. living room) for individuals and industries. We have in depth knowledge of the following solar technology: flat plan collectors, vacuum collectors and micro CSP. We propose the best solar thermal technology according to the needs of the client.

Who is watersol Maroc?

Watersol Maroc has a team of over 20 professionals all of who are leaders on their respective fields. Watersol Maroc installs solar, photovoltaic and biomass systems from Marrakech to Casablanca, Essaouira, Agadir, and Skoura. To date, Watersol Maroc has installed over 150 various renewable energy systems across Morocco.

Does watersol Maroc work with Tatano?

Watersol Maroc works closely with Tatano for our biomass heating installations! Watersol Maroc installs solar thermal systems to produce hot water, heat pools and heat spaces (i.e. living room) for individuals and industries. We have in depth knowledge of the following solar technology: flat plan collectors, vacuum collectors and micro CSP.

Solar powered water pump technology is a very good solution to agricultural irrigation. The system consists of 624kW solar array, 55kW pump inverter and 45kW pump and provides 40m³/h water for irrigation.
