Pylontech is the leading vertically integrated manufacturer of lithium iron phosphate battery systems. The Chinese company was founded in 2009. Pylontech is a unique company because all technologies needed for energy storage systems (ESS) like cathode material, lithium cell, battery management system (BMS) and system integration are vertically ...

Discussion about LiFePO4 NZ suppliers. The major con is the risk that the cells inside the batteries are not as specified - i.e. repackaged B grade or worse cells which is apparently widespread practice.

The advantage of lithium over lead acid and AGM batteries are huge. They are much lighter and can be run down to empty with no issues meaning you can get roughly double the useable amps out of a lithium. The built in battery management system has an automatic shutdown to protect it when it is nearly completely flat. The other beauty is as their capacity gets used the battery ...
