

How big is the North America uninterruptible power supply market?

Data Bridge Market Research analyses that the North America Uninterruptible Power Supply (UPS) Market which was USD 220 million in 2022, would rocket up to USD 480 million by 2030, and is expected to undergo a CAGR of 7.90% during the forecast period of 2023 to 2030.

Which countries are covered in the North America uninterruptible power supply (UPS) market report?

The countries covered in the North America uninterruptible power supply (UPS) market report are U.S., Canada and Mexico. U.S. dominates the uninterruptible power supply (UPS) market because U.S. has a strong reputation for technological innovation and advancement.

Who makes uninterruptible power supply (UPS)?

Also, please take a look at the list of 68 uninterruptible power supply (ups) manufacturers and their company rankings. Here are the top-ranked uninterruptible power supply (ups) companies as of March, 2025: 1. Active Power, Inc., 2. Staco Energy Products Co., 3. LA Marche MFG. What Is an Uninterruptible Power Supply (UPS)?

What is the global uninterruptible power supply (UPS) market size?

The Report Offers the Market Size and Forecasts for the Uninterruptible Power Supply (UPS) Market in Revenue (USD) for all the Above Segments. The Uninterruptible Power Supply Market size is estimated at USD 12.16 billion in 2025, and is expected to reach USD 14.60 billion by 2030, at a CAGR of 3.73% during the forecast period (2025-2030).

Why does the United States dominate the uninterruptible power supply market?

U.S. dominates the uninterruptible power supply (UPS) market because U.S. has a strong reputation for technological innovation and advancement. American companies often invest heavily in research and development, leading to the creation of cutting-edge TOC analyzer technologies. These advancements can give them a competitive edge in the market.

What is the growth rate of the Asia-Pacific uninterruptible power supply market?

The Asia-Pacific uninterruptible power supply market is projected to grow at a robust rate of approximately 5% annually from 2024 to 2029, positioning it as the fastest-growing region globally. This market is characterized by rapid industrialization, expanding digital infrastructure, and increasing investments in data center facilities.
