

Northern Cyprus solar tiles

Which roof tile has a solar panel?

The SOLAR FLAT-5XL ceramic tile, which has a solar panel on the large ceramic base of the roof tile, preserves the dimensions of the original ceramic tile and is still completely flat. The choice of materials for a roof is crucial to guarantee its durability, watertightness, energy efficiency and to protect the home.

Can a solar roof be integrated with a planum tile?

Our Solar tile combines perfectly with our Planum ceramic tile, so the system will be fully integrated with the roof. Planum Solar tiles are made from premium mono crystalline cells and the glass technology that surrounds them is very sturdy and durable in extreme weather conditions.

Which solar tiles are best for solar panels?

The SOLAR FLAT-5XL MONOCRYSTALLINE tile provides excellent photovoltaic cell performance and high output in low light conditions, although they are sensitive to partial shade. However, the tiles provide greater peak power per square metre than those using other types of solar cells.

Why should you choose a solar flat-5xl ceramic tile?

The choice of materials for a roof is crucial to guarantee its durability, watertightness, energy efficiency and to protect the home. For this reason the SOLAR Flat-5XL ceramic tile integrates perfectly into the profile of the building, minimizing the visual impact of the solar tiles.

How to install solar tiles on a ventilated roof?

SOLAR tiles, both the Flat-5XL and Flat-10 formats, must always be installed on ventilated roofs, using a double batten or equivalent system. The integration of the tiles into the roof is achieved by finishing the roof with ceramic tiles and their corresponding special pieces.

What is a solar flat 10 tile?

The SOLAR FLAT-10 tile is the same size as 5 ceramic tiles with the same model name and incorporates CIGS technology in its photovoltaic panel. SOLAR Flat-10 Tile

Solar is an excellent long term solution, but DONT be tempted by offers of "Cheap" panels or "Bargain Package Deals". They will definitely be a bad investment.

Northern Cyprus solar tiles

Solar roof tiles, also known as solar slates or solar shingles, are made to look a lot like normal roof tiles, except they also contain photovoltaic (PV) cells and can generate electricity. Unlike traditional solar panels, which sit on top of your roof, solar roof tiles are your roof, i.e. they completely replace your old tiles.

Solar tiles are small PV modules designed to resemble regular roofing. When the main barrier to investing in solar is appearance, PV tiles can be the perfect solution. ... These cover unfavourable parts of the roof, like north-facing or shaded surfaces, or to scale the size of the PV system to the electricity demand of the property.
