How much Mah is a waterproof power bank?

The massive 30,000 mAh is enough for up to 13 full charges of most smartphones and is so powerful that it can be used with laptops and portable gaming devices. If you need a waterproof power bank to use outdoors and last for multiple days at a time while still charging all your gadgets, this is 100% the one to get.

What is the best waterproof power bank?

As you can see from the chart below, an IP68 would be the highest possible rating. However, most of the best waterproof power banks are rated to IP67, which is more than enough protection for rugged outdoor use.

What additional features do outdoor power banks have?

As well as being impact and water-resistant, power banks specifically designed for the great outdoors often have LED lights, so they can be used as torches. This can be a useful additional feature, as can power banks with integrated charging cables - so you don't have to remember to bring separate cables with you.

Which power bank should I buy?

After testing out a number of the best power banks in a range of sizes, I'm confident that most people will get the power needs they are looking for with the Anker 511 Portable Powerstation or the Scosche PowerUp 32K.

Do you need a waterproof power bank for camping?

For camping in damp or humid conditions, or on expeditions, you might need a waterproof and rugged power bank. Look for a product with a certified IP rating, such as IPX6 or IP67, to ensure it can cope with moisture or immersion as well as bumps and knocks.
