

Portable energy storage equipment for camping

Which portable power station is best for camping?

Based on our hands-on experience and in-lab testing, the Jackery Explorer 2000 Plus is the best portable power station for camping. Its modularity makes it a versatile option for all types of camping. Which portable power station for camping is right for you?

How much power can a portable power station hold?

While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story. The best portable power stations also have an onboard computer that shows you how much energy is left in your unit, as well as how much power it's currently using.

What is the best portable power station?

We also assess extra features, like companion apps and Uninterrupted Power Supply (UPS), which delivers seamless, continuous power during unexpected outages. Right now, the EcoFlow Delta 3 Plus is the best portable power station we've tested overall.

How long does a portable power station last?

Like any battery, for example one in a phone or laptop, this will wear down over time until the power station no longer holds charge. General estimates put the lifespan of a portable power station at around ten years. Expect it to last approximately five years minimum with standard use. What can you run on a portable power station?

What devices can a portable power station run?

So long as your portable power station has the right ports and enough capacity, it can run a massive range of devices, including phones, laptops, and desktops. Higher capacity units will also let you power appliances and charge electric vehicles. Check which ports your preferred model has, including USB Type-A and Type-C, AC and mains sockets.

What is the best portable power station for backup?

Anker Solix F1200 (1,229Wh): This unit was previously known as the PowerHouse 757 from Anker, and was also CNET's previous pick for "best portable power station for backup." Its UPS mode was one of the earlier units to boast "less than 20ms" switchover time in the event of a power outage. It's also currently \$500 off on Anker's site.
