AMETEK Solidstate Controls has been building the world's most robust, industrial, uninterruptible power supply systems (UPS) for more than 56 years. Each system is created specifically to meet each of our clients' needs, with completely customizable configuration.

When choosing the right uninterruptible power supply, particular attention should therefore be paid to longevity, energy efficiency and reliability. While space-saving solutions are increasingly becoming the obvious choice due to the ever-increasing range of functions involved, the ability to communicate also plays an increasingly decisive role.
