

What are Elna America supercapacitors?

ELNA America supercapacitors lineup includes commercial and automotive grades: DZ series - Slim profile screw terminal supercapacitor modules rated from 25F to 200F at 2.3V primarily aimed at peak power assist and backup across industrial segments.

What are supercapacitors & ultracapacitor?

Supercapacitors or ultracapacitors offer unique advantages like ultrafast charging, reliable operation spanning millions of duty cycles alongside wide operating temperatures and collaborative integration with batteries or fuel cells for energy storage applications.

What are Eaton supercapacitor offerings under Cooper Bussmann Division?

Eaton supercapacitors offerings under Cooper Bussmann division include: Configurable ultracapacitor modules customizable from 6V to 48V comprising series stacked cells attaining capacitance over 132,000F as drop-in lead acid battery alternative for UPS systems. Protective heat sinks manage heat dissipation enabling high power delivery.

Who makes snap-in supercapacitors?

Founded in 1944 and headquartered in Kyoto, Japan, Murata Manufacturing Co., Ltd. specializes in electronic components including capacitors, sensors and power supply modules counting among the world's largest component makers with over \$5 billion in revenues. Their lineup of snap-in supercapacitors includes: Supercapacitors for Memory Backup

Which ultracapacitor is best for industrial backup power usage?

They provide wide reaching supercapacitor solutions including: Goldcap brand large can ultracapacitors with maximum capacitance of 2800F supporting peak power discharges. Stacked ultracapacitors modules attaining capacities of 132,000F for industrial backup power usage. The modules integrate balancing and overvoltage protection.

Apart from the components delivery, we can also provide technical support directly from the manufacturer and samples needed for development. SAMWHA Capacitor Group with a history dating from 1956/South Korea, produces a wide range of high quality passive components, like power capacitors, MLCCs, EMI filters, chip inductors, varistors and ultra ...
