Where is Onyx Solar located?

Onyx Solar USA Onyx Solar Spain05004 Ávila. Spain. Onyx Solar is a global leader in manufacturing photovoltaic (PV) glass,turning buildings into energy-efficient structures. Our innovative glass serves as a durable architectural element while harnessing sunlight for clean electricity.

What is Photovoltaic Glass?

Our photovoltaic glass offers a cutting-edge solution for both new construction and renovation projects. When integrated into ventilated façades, this glass enhances building aesthetics while providing key benefits such as radiation protection, thermal and acoustic insulation, and improved occupant comfort.

Is Photovoltaic Glass a good investment?

Photovoltaic glass not only offsets conventional building material costs but also provides a tangible return on investment through energy generation. With an average payback time of 4 years and yearly ROIs of up to 20%,it stands as a sound economic choice.

What is a 'U-value' in Photovoltaic Glass?

Onyx Solar's photovoltaic glass is a great material to provide control over internal building comfort levels. Expressed by the thermal transmittance of the glass, the 'U-value' represents the amount of heat that passes through the glass when there is a temperature difference between its two sides.
