A twinkling string of fairy lights will make a warm, cozy nest and AMIR is one of the best lighting companies out there. With their string solar inside lights are renowned for their durability and versatility. The Upgraded String solar-powered indoor lights can be used both inside and outside and are perfect for relaxing accent lighting.

What are indoor solar lights?

Indoor solar lights are for those that are environmentally conscious and will add a whole new dimension. Solar lighting solutions for the outdoors are similar and also come in many different shapes and sizes. From solar fence lighting to super bright solar floodlights.

How to install indoor solar lights?

The best thing about indoor solar lights is that they have no need for special tools or extra wirings for installation. The kits have everything you need for that, including the power cord, the battery, the lamp, and the solar panel. All you need to do is find the perfect spot for installing indoor solar-powered lighting and hang the lamp there.

Can a solar light be used indoors?

The lamp can be used indoors with 3m cable from solar panel to the light. Also, the solar panel can be adjusted to a variety of angles, which ensures the panel can absorb enough light from sunrise to sunset, so the light can be used for 8 - 12 hours after being fully charged. Thus, this product has a long working time and short charging time.

Are solar lights a good choice for your home?

When it comes to creating a warm, inviting ambiance for your home, few things are as important as lighting. The wrong set-up can turn a cozy little nest into a harsh, bleached-out office cubicle. Indoor solar lights are a great option to consider and offer great energy efficiency.
