Who is independent electric supply?

EV charging, portable lighting, heating, ventilation, batteries, shop supplies, and more. Independent Electric Supply (IES) is one of Toronto's first distributors of commercial, industrial, and residential electric products. With our fleet of 5 GPS tracked trucks, we offer same day delivery for orders received prior to 10 am.

What is a power supply?

Power supplies are devices or hardware that convert or transform electrical input into electrical output. A power supply can be located both internally and externally depending on the need and application.

What products are included in a power supply system?

This includes hardened outdoor enclosures, uninterruptible power supply (UPS) modules, specialty batteries, accessories and generators that can be custom integrated to meet your application.

Where is a power supply located?

A power supply can be located both internally and externally depending on the need and application. They may be used to change an AC input voltage to DC output voltage, a DC input voltage to a different DC output voltage, or an AC input voltage to a different AC output voltage.
