

# Umart uninterruptible power supply

Should I buy an uninterruptible power supply?

If you want consistent power, even during a mains power outage, consider buying an uninterruptible power supply (UPS) unit. UPS devices offer consistent uptime and power protection for your critical devices in the event of a blackout. Below are Umart's answers to some of the most popular power supply questions.

What power supply does umart sell?

Umart offers lower-wattage power supplies from 300W to 600W, or choose a 750W power supply (and higher) for more power-hungry PC components. The size of your desktop PC case may limit your power supply options. Umart sells hundreds of ATX-compatible PSUs, plus a range of options for SFX, TFX and server PC builds.

Who is umart electrics?

Umart Electrics Co., Ltd, who mainly dedicated into researching and producing power supply products, is a subsidiary company of Umart (USA) Group. The products range includes UPS, EPS, Inverter, AVR & Switching power, etc. The company aim in the provision of power solutions for the systems as communication, telecom, network, finance, government, ...

Does umart sell EVGA power supplies?

Umart offers a huge range of products from popular brands, including Corsair power supplies, EVGA power supplies and Seasonic PSUs. If you want consistent power, even during a mains power outage, consider buying an uninterruptible power supply (UPS) unit.

What brands of power supply / PSU are available?
