Leading brands like APC, Vertiv, Tripp Lite, Riello, Eaton, and Salicru offer reliable UPS Power Supplies and Online UPS Systems to ensure continuous operation of computer systems and IT networking equipment during electrical disturbances.

A UPS bypass switch is a non-essential addition to an uninterruptible power supply system that, while not integral to UPS operation, is definitely useful in the event of maintenance or repair. The core items you need in order to be protected in the event of power failure are a UPS and a battery to supply the power, under standard operation this should be all that is required.
