

Victoria photovoltaic panel factory direct sales price

How much does a Victorian Solar System cost?

Victorians typically pay \$4,100 - \$8,430 for a standard solar system based on their preferred size. Victorian solar rebates and schemes include Small-scale Technology Certificates (STCs), Feed-in tariffs (FiTs), and the Solar Homes Program.

Are solar panels a good investment in Victorian homes?

Significant savings: Victorian homeowners can reduce energy bills by up to \$2,200 per year with solar panel systems, with payback periods as short as 3-5 years.

What is the solar panel rebate - solar Victoria?

Find details about the solar panel rebate - Solar Victoria. A typical 4kW (kilowatt) solar panel system can help most households pay a lot less for electricity. You will still need to draw the rest of your electricity from the state electricity grid. The amount of electricity your system generates will depend on several factors. These include:

What is solar Victoria & how does it work?

Solar Victoria is the body the state government has set up to manage the delivery of the Victorian Government's Solar Home Program - which offers an additional rebate to the federal program to eligible solar panels Melbourne customers. Importantly this is in addition to the federal STC rebate mentioned above - you don't have to choose between them.

How much does a solar PV system cost in Australia?

These prices include the STC discount (Renewable Energy Target incentive) and GST, representing the total retail cost to the customer. A commonly sized 6kW Solar PV System would cost between \$4,000 and \$6,000 in most states in Australia, while a 10kW system typically falls between \$7,500 and \$10,500.

Should you buy a solar home in Victoria?

On 1 July 2019, the Victorian Government announced the 'Solar Homes Program', which aims to further encourage the uptake of solar with an upfront rebate. The government intends to help households invest in solar, while decreasing the state's carbon emissions. So, if you don't already have solar, now may be the perfect time to get on board.
