Who owns the Wellington Battery energy storage system?

It now fully owns the battery storage facility. AMPYR Australia is now the full owner of the Wellington Battery Energy Storage System (BESS) after acquiring Shell Energy Australia's 50% stake in the project's stage 1. In a statement, AMPYR said it had been joint venture partners with Shell in the New South Wales project since October 2022.

What is the Wellington Battery energy storage system (BESS)?

The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW), Australia. The project will comprise a grid-scale BESS with a total discharge capacity of around 400MW. AMPYR Australia, a renewable energy assets developer in the country, owns 100% of the BESS project.

Who owns Wellington Battery Stage 1?

AMPYR Australia today said it has acquired its joint venture partner Shell Energy Australia's 50% stake in the 300-MW/600-MWh Wellington Battery Stage 1, thus securing full ownership of the entire 1,000-MWh project in New South Wales. Battery energy storage systems (BESS) License: CC0 1.0 Universal (CC0 1.0) Public Domain Dedication.

What is the target capacity of the Wellington Bess?

The target capacity of the Wellington BESS is 500 MW /1,000 MWh, making it one of the largest battery storage projects in NSW. The Wellington BESS will connect to the adjacent TransGrid Wellington substation, adjacent to the Central West Orana Renewable Energy Zone (Central West Orana REZ).

When will ampyr & shell energy build the Wellington Bess project?

The Wellington BESS project is being jointly developed by AMPYR and Shell Energy. Subject to securing all relevant approvals, authorisations and financing, construction is expected to commence in mid-2023. Once operational, Shell Energy will hold the rights to charge and dispatch energy from the Wellington BESS.

When will ampyr energise the Wellington project?

The Wellington project has been under development for almost four years. Ampyr is now aiming for energisation of the initial stage in 2026, with the second stage to follow in 2027.

Ampyr said the two-hour battery energy storage system, that will connect to the National Electricity Market via TransGrid's Wellington substation, will complement existing renewable energy generation assets and the ...

increasingly affordable; Pumped Hydro: Think of it as a giant battery using Wellington's hills as natural storage tanks; Thermal Storage ...

AMPYR Australia has announced the acquisition of Shell Energy Australia's 50% stake in the Wellington Battery Energy Storage System (BESS) in New South Wales. This acquisition makes AMPYR the sole owner of the 1,000 megawatt-hour (MWh) project.

It's 8 PM in Wellington. Thousands of kettles boil simultaneously during the TV show ad breaks, causing the biggest energy spike since... well, yesterday's ad breaks. Enter the Wellington Energy Storage Power Plant - New Zealand's unsung hero that keeps your Netflix binge sessions and late-night toasties uninterrupted [1]...

Ampyr Australia, the local arm of Singapore-based outfit Ampyr Energy, says it has acquired oil major Shell Energy's 50% stake in the 300 MW / 600 MWh first stage of the Wellington battery energy storage project being developed near Dubbo in New South Wales.. In conjunction with the 100 MW / 400 MWh second stage of the battery, Ampyr now owns 100% ...

Saft Executive Vice President for Energy Storage Solutions, Hervé Amoss, says Saft are proud to pioneer the utility scale energy storage system with WEL Networks and Infratec in New Zealand. "This first network-scale battery system will contribute to the country's Net Zero ambition by 2030, allowing for more renewable energy to be ...

Eos is accelerating the shift to American energy independence with zinc-powered energy storage solutions. Safe, simple, durable, flexible, and available, our commercially-proven, U.S.-manufactured battery technology overcomes the limitations of conventional lithium-ion in 3- to 12- hour intraday applications.

Growth Planning is publicly exhibiting a draft Planning Agreement with the Trustee for WEBESS01 PROJECT TRUST that relates to the Wellington South Battery Energy Storage System at 6773 Goolma Road, Montefiores. The draft Planning Agreement and Explanatory Note are on public exhibition from Wednesday 7 August 2024 until 9am, Monday 9 September 2024.

AMPYR proposes to develop the Wellington Battery Energy Storage System. The project consists of a battery energy storage system (BESS) with a capacity of 500 megawatts (MW) / 1,000 megawatt-hours (MWh), with associated infrastructure.

Its Singapore-headquartered parent company, Ampyr Energy, is developing around 12GW of projects globally. 1GWh+ energy storage projects being developed in New South Wales. New South Wales remains an investable state for large-scale energy storage facilities like the Wellington BESS and the Waratah Super Battery.

Once operational, Shell Energy will hold the rights to charge and dispatch energy from the Wellington BESS (Battery Energy Storage System). Batteries are critical for Australia's energy ...
